

OFFICE OF THE GENERAL COUNSEL
Division of Operations-Management

MEMORANDUM OM 13-40

April 1, 2013

TO: All Regional Directors, Officers-in-Charge,
and Resident Officers

FROM: Anne Purcell, Associate General Counsel

SUBJECT: Bridge Program for the Position of Field Examiner

Pursuant to Article 7 of the extended collective-bargaining agreement between the General Counsel and the National Labor Relations Board Union covering Field office support staff employees (Agreement), the Agency has agreed to announce each year, by a national posting, three Field Examiner Bridge Program positions. This memorandum is the national posting for Fiscal Year 2013. Applications will be submitted to, and processed in, the Division of Operations-Management, and the Associate General Counsel for Operations-Management will be the selecting official. Evaluation and selection of candidates for the Bridge Program will be governed by the application of Article 7, Section 5(d), of the extended Agreement in conjunction with Section 3 ("Evaluation and Selection") of the "Bridge Program for Labor Management Relations Examiner Positions, General Schedule Positions, GS-4, 5, 6 and 7," a copy of which has been posted with this memorandum. Successful applicants will serve in the Regions in which they currently work. Because a trainee is required to take 30 semester hours of college courses during the 3-year-training period, any selection(s) will be made by August 2, 2013, so that selectee(s) may register for appropriate courses in the fall college semester.

The Selection Process

Enclosed are memoranda announcing the program that should be distributed to all support staff employees in the Region and posted on the office bulletin board along with a copy of the program. **Employees who wish to be considered for the program are to submit their applications by e-mail to Victoria Wallace, Administrative Assistant, by close of business on April 30, 2013.** A determination will then be made as to which of the applicants meet the basic eligibility requirements set forth on pages 1 and 2 of the Bridge Program.

Once basic eligibility is determined, the respective Regions where the eligible applicants are located will be asked to forward to Operations-Management copies of the three most recent appraisals prepared for each eligible applicant. If an appraisal has not previously been prepared for an applicant who meets the basic eligibility requirements for the Bridge Program, the appropriate supervisor should complete it. In

addition, an "Appraisal of Potential Based on Job Elements" (copy attached) will need to be completed for each eligible applicant by the supervisor or manager who is most familiar with the applicant's qualifications. Personal interviews will then be conducted by Operations-Management staff through videoconferencing with eligible applicants. Based upon the interviews, the "Appraisal of Potential," the applicant's annual performance appraisals, and taking into consideration the five factors (work experience, education and training, special achievement, overall performance, and potential), listed in Section 3(b)(1), page 3, of the Bridge Program, a determination will be made as to whether any of the applicants will be recommended for selection as a Bridge Program participant.

Grade Level at Assignment to the Program and Promotion During Training

If the person selected for the program is currently in grades GS-5, -6, or -7, he or she will be assigned to the program at his or her present grade level. An individual at GS-8 or above will enter the program at GS-7, but pay retention will apply to such a person.

Trainees who enter the program at one or more grade levels below that of the GS-7 target position will be temporarily promoted to the next higher grade after successful completion of each full year in the program up to and including grade GS-7. Thus, for example, a trainee who enters the program at GS-6 is eligible for a temporary promotion after successful completion of his or her first year. The individual would remain at GS-7 during the remainder of the program. Upon successful completion of the third year, the individual would be permanently promoted or reassigned to a GS-7 Field Examiner position. On the other hand, if an employee at the GS-5 level is selected for the program, that individual would, depending on his or her progress, be eligible for a temporary promotion to GS-6 at the end of the first year and to GS-7 at the end of the second year. The individual would remain at GS-7 during the third year of the program. Upon successful completion of the third year, the trainee would be permanently promoted or reassigned to the GS-7 Field Examiner position.

Employees who have less than 12 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 12 months in grade as a GS-7 Field Examiner. Employees who have 12 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 6 months in grade as a GS-7 Field Examiner. Employees who have 24 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 3 months in grade as a GS-7 Field Examiner. Employees who took a downgrade to GS-7 to enter the program and have served 36 months in the program as a GS-7 will immediately upon conversion to GS-7 Field Examiner be promoted to GS-9. Subsequent promotions will follow the Field Examiner merit promotion plan that establishes the journeyman level for Field Examiners at GS-13.

Program Academic Requirements

Section 4(c) of the program provides that each trainee will, at Agency expense, take 30 semester hours of college courses. The academic requirements of the program must be fulfilled by taking classes at accredited institutions. The Regional Director, or his or her designee, will plan the curriculum with the trainee. During the first year, the trainee must take (if available) 3 semester hours in Speech/Oral Communication, 6 semester hours in English Composition or college-level writing, and 3 semester hours in Logic; and will be encouraged to take 3 semester hours in accounting. After the first year, the remaining semester hours must be from among the following related fields of study: political science, government, economics, industrial or labor relations, personnel administration, business administration, accounting, or labor law; provided, that if any of the first-year courses, including accounting, were not satisfied in the first year of the program, they must be satisfied in the second year of the program. The educational institution, the curriculum, and the cost assumed therewith, and schedule of courses, must be approved in advance by the Regional Director in consultation with the Division of Operations-Management. Unless the required course is available only during the day, it should ordinarily be taken at night. Each trainee is required to furnish grade transcripts at the completion of any college course work. If a trainee receives a grade of less than a "C" (or less than 2.0 under a numerical grading scale) in any course, this will be taken into consideration in determining whether the trainee should continue in the program.

A trainee who has already successfully completed any of the college-level courses identified above prior to entry into the program may receive Bridge Program credit for those courses. That determination will be made by the Division of Operations-Management based on a review of the trainee's academic transcript.

On-the-Job Training

A training plan must be specifically developed for each trainee. Attached is a typical training plan covering the normal 3-year program. Because many of the individuals entering this program will have had little preparation for the type of professional position that they are seeking, it is absolutely essential that the training and development of the participant be given the closest possible attention and supervision.

As set forth in the attached typical training plan, the trainee will perform support staff duties up to 40 percent the first year. The second and third years will be devoted entirely to on-the-job training as a Field Examiner; therefore, no support staff duties will be assigned. On-the-job training is lighter during the first year but is balanced with heavier college course work.

The trainee will retain his or her support staff position throughout the training program. However, during the second and third years, consideration will be given to detailing or temporarily promoting another employee into the position.

Evaluation During the Program by Management

Ninety days after the trainee has been assigned to the program, the supervisor should prepare a written evaluation of the trainee's developmental needs. In addition, the specifically tailored 3-year training plan should be generally described and the projected 3-year program of college courses set forth. A copy of this evaluation should be forwarded electronically to Administrative Assistant Victoria Wallace, with a copy to your Assistant General Counsel or Deputy.

In accordance with Article 7 of the extended Agreement, at the end of the first 3 months, and quarterly thereafter, except on the employee's anniversary date in the program, the supervisor should prepare a quarterly written performance evaluation of the trainee's work and progress. A copy of the evaluation should be given to and discussed with the trainee. A copy should also be forwarded electronically to Administrative Assistant Victoria Wallace, with a copy to your Assistant General Counsel or Deputy. On an annual basis, the employee is to be provided an Annual Performance Appraisal in accordance with Article 7 of the extended Agreement.

Evaluation to be Prepared by the Trainee

A trainee under this program is also required to make certain written evaluations. Each trainee is required to provide a written assessment, on a quarterly basis, of his or her development. Each trainee must also furnish grade transcripts at the completion of any college course work. Developmental evaluations and academic transcripts should be submitted to Regional management and forwarded electronically to Administrative Assistant Victoria Wallace, with a copy to your Assistant General Counsel or Deputy.

Action Upon Failure to Meet Standards

When the Associate General Counsel, Division of Operations-Management, determines that a trainee has failed to meet performance requirements, the trainee will, depending on the availability of suitable position vacancies, be laterally reassigned or returned to his or her former position or to a similar position with equivalent status and grade. The trainee may be placed in a position that carries a lower grade than his or her former position when an action returning the trainee to his or her former grade would constitute a violation of the merit promotion system.

The Bridge Program provides a meaningful way for support staff employees to change careers and perform professional work of a particularly complex and challenging nature. Consequently, great care will be given to the evaluation of applicants to determine whether any have the ambition and the ability to assume the responsibilities of a Field Examiner. Of course, if an individual is selected, we have an affirmative duty to provide training and development with care and attentiveness so as to assist the trainee in reaching the Field Examiner position.

Please distribute this memorandum and the attachments electronically to all support staff employees in the Region and place a copy on your office bulletin board. Any questions should be directed to your AGC or Deputy.

OFFICE OF THE GENERAL COUNSEL
Division of Operations-Management

MEMORANDUM

TO: All Field Office Support Staff Personnel

FROM: Anne Purcell, Associate General Counsel

SUBJECT: Bridge Program for Position of Field Examiner

Pursuant to Article 7 of the extended collective-bargaining agreement between the General Counsel and the National Labor Relations Board Union covering Field office support staff employees (Agreement), the Agency has agreed to announce each year, by a national posting, three Field Examiner Bridge Program positions. This memorandum is the national posting for Fiscal Year 2013. Applications will be submitted to, and processed in, the Division of Operations-Management, and the Associate General Counsel for Operations-Management will be the selecting official. Evaluation and selection of candidates for the Bridge Program will be governed by the application of Article 7, Section 5(d), of the extended Agreement in conjunction with Section 3 ("Evaluation and Selection") of the "Bridge Program for Labor Management Relations Examiner Positions, General Schedule Positions, GS-4, 5, 6 and 7," a copy of which has been posted with this memorandum. Successful applicants will serve in the Regions in which they currently work. Because a trainee is required to take 30 semester hours of college courses during the 3-year-training period, any selection(s) will be made by August 2, 2013, so that selectee(s) may register for appropriate courses in the fall college semester.

The training will last 3 years with the possibility that it may be extended for 1 year, if necessary. Before completion of the training period, trainees are required to have completed 30 semester hours of selected college courses which will be paid for by the Agency. Unless the courses are available only during the day, they should be taken at night.

The Bridge Program provides that the trainee will perform support staff duties up to 40 percent of the time during the first year. The remainder of the workweek will be devoted to on-the-job Field Examiner training. During the second and third years of the program, 100 percent of the trainee's time will be devoted to on-the-job Field Examiner training.

Employees who wish to be considered for the program are to submit their applications by e-mail to Victoria Wallace, Administrative Assistant by close of business on April 30, 2013.

Some of the program's more important provisions are outlined below. However, employees should read the complete program that is attached to this memorandum.

Eligibility Requirements

To be eligible for consideration, employees must currently be at grade GS-5 or above and be serving in a career or career-conditional appointment. The length of required qualifying experience varies with the entry level of the trainee position:

52 weeks experience equivalent to GS-4 for GS-5,
52 weeks experience equivalent to GS-5 for GS-6, and
52 weeks experience equivalent to GS-6 for GS-7.

Substitution of appropriate education for experience may be made as outlined in OPM Qualification Standards.

Entry Level

If a successful candidate is currently serving at GS--5, -6, or -7, he or she will be assigned to the program at his or her present grade level. If a successful candidate is currently serving at the grade level GS-8 or above, he or she will enter the program at GS-7. Pay retention will be applied if a successful candidate is above the GS-7 level.

Promotions

A trainee who enters the program at one or more grade levels below GS-7 will be temporarily promoted to the next higher grade level after successful completion (i.e., attaining the required performance ratings) of each full year in the program up to and including grade GS-7. Thus, for example, if an employee at the GS-5 level is selected for the program, that individual would, depending on his or her progress, be eligible for a temporary promotion to GS-6 at the end of the first year and to GS-7 at the end of the second year. The individual would remain at GS-7 during the third year of the program. Upon successful completion of the third year, the trainee would be permanently promoted or reassigned to a GS-7 Field Examiner position. Employees who have less than 12 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 12 months in grade as a GS-7 Field Examiner. Employees who have 12 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 6 months in grade as a GS-7 Field Examiner. Employees who have 24 months in grade as a GS-7 while in the Bridge Program are eligible for promotion to GS-9 after 3 months in grade as a GS-7 Field Examiner. Employees who took a downgrade to GS-7 to enter the program and have served 36 months in the program as a GS-7 will immediately upon conversion to GS-7 Field Examiner be promoted to GS-9. Subsequent promotions will follow the Field Examiner merit promotion plan that establishes the journeyman level for Field Examiners at GS-13.

We look forward to receiving applications from interested employees.

National Labor Relations Board
Bridge Program For
Labor Management Relations Examiner Positions
General Schedule Positions GS-4, 5, 6, and 7

1. Purpose: The purpose of this program is to provide carefully selected employees who are currently serving in nonprofessional positions' with an opportunity to qualify for professional careers as Labor Management Relations Examiners. Career development activities to be provided these employees include formal education and training and assignment to specially designed "bridge" positions that will provide them with qualifying experience and on-the-job training.

Specifically, the objectives of this program are:

- a. To achieve more effective utilization of those employees who have the capacity for professional development;
 - b. To permit career movement for capable employees whose current job assignments fail to provide opportunities for professional development; and
 - c. To motivate employees toward high achievement and create an environment that promotes high morale.
2. Position Coverage:
 - a. Trainee (Bridge) Positions: Trainee positions will be established and posted at grades 4, 5, 6, and 7 in the GS-303 occupational series. Positions established at the GS-4, 5, and 6 levels will be titled Labor Management Relations Aid, whereas at the grade GS-7 level, Labor Management Relations Assistant will be the title used.

- 1) Basic Eligibility Requirements:

Trainees will be selected consistent with the Agency's merit promotion program from among full-time NLRB employees (or part-time position to which the employee can be converted) who currently hold nonprofessional "field" positions in grades GS-3 and above who:

--Are currently serving on career-conditional or career appointments; and

--Have demonstrated their potential for career development in a professional occupation.

2) Experience and/or Training Requirements:

To be considered eligible for assignment to a trainee position, the applicant must have the following amounts of qualifying experience:

| <u>Grade</u> | <u>Qualifying Experience</u> |
|--------------|------------------------------|
| GS-4 | 52 weeks |
| GS-5 | 52 weeks equivalent to GS-4 |
| GS-6 | 52 weeks equivalent to GS-5 |
| GS-7 | 52 weeks equivalent to GS-6 |

“Qualifying experience” is that which is gained in technical, specialized, clerical, administrative or other responsible work that has demonstrated the employee’s potential to satisfactorily complete the developmental program.

Equivalent combinations of education and experience are qualifying for all grade levels and positions for which both education and experience are acceptable.

Successful candidates currently serving at GS-4, 5, 6 or 7 will be assigned to the program at their present grade levels. Successful candidates currently serving at GS-3 will be promoted to GS-4. Successful candidates serving at or above GS-8 will enter the program at GS-7, but pay retention will apply to such persons.

3) Length of Training:

The normal length of the training program will be 3 years. However, the length and/or intensity of the program may be altered to conform to the individual developmental needs of trainees. Trainees may be permitted to repeat any year phase of the program, provided that the overall length of the program does not exceed 4 years. The failure of a trainee to progress to succeeding year phases of the program within two years, in any year phase, of the program or to complete the program in a maximum of four years is an appropriate basis to remove the trainee from the program.

4) Retention and Promotions During Training:

In order to be retained in the program and where appropriate, promoted, a trainee must achieve appropriate performance ratings. In addition, a trainee who enters the program at one or more grade levels

below that of the target position will be non-competitively promoted to the next higher grade, after each full year in the program, up to and including grade GS-7, provided the trainee has met all of the requirements for promotion. At the end of the third year, the trainee may be reassigned or promoted, as appropriate, to the target position of Labor Management Relations Examiner, GS-244-7, consistent with below.

In order to allow for promotions during the Bridge Program, and because the nature of the Bridge Program precludes a final determination as to the candidate's conversion until completion of the entire program, applicants will be required to sign an acknowledgement that any reduction in grade or pay that may be necessary to return the employee to his or her former or, as appropriate, other position upon failure to meet standards, shall not be subject to the adverse action or grievance procedures.

b. Target Position: The target position will be Labor Management Relations Examiner, GS-244-7.

Eligibility Requirements:

Trainees will be recommended by the Regional Director for assignment to the target position if they have: (A) successfully completed the training program; (B) achieved appropriate performance ratings; (C) demonstrated the ability to perform at the GS-7 Field Examiner level; (D) demonstrated the potential to progress to at least the full performance level; and (E) met Office of Personnel Management qualification requirements (Single Agency Qualifications Standard for positions classified in the GS-244 occupational series).

3. Evaluation and Selection:

a. To ensure eligibility for consideration, the Division of Operations-Management in cooperation with the Human Resources Branch will be responsible for preliminary screening of applicants' qualifications.

b. In evaluating candidates, consideration will be given to;

1) The candidate's:

- Work experience;
- Education and training;
- Special achievement;
- Overall performance; and
- Potential

- 2) The contents of the Appraisal for Potential Based on Job Elements (Form NLRB-4940);
 - 3) The results of the interviews conducted to ascertain candidates' career goals and potential for professional development; and
 - 4) Each candidate's three most recent performance appraisals.
- c. For each annual posting, staff in the Division of Operations-Management will designate the best qualified candidates and submit recommendations (if any) in writing to the Associate General Counsel, Division of Operations-Management.
 - d. The decision to fill or not fill any of the positions or to select specific applicants will be made by the Associate General Counsel, Division of Operations-Management, who may select any candidate on the best qualified list. Except for an allegation that the employee's non-selection is in violation of Article 4, Sections 1, 4, or 11 of the extended Agreement between the General Counsel of the National Labor Relations Board and the NLRB Union covering field office support staff employees, or any law affecting conditions of employment, non-selection for the program is not subject to the grievance or arbitration procedures.

4. Training Plan: The plan will follow the same general outline for all trainees; i.e., it will be geared to the basic requirements of the Labor Management Relations Examiner occupation and designed so as to assure the trainee's acquisition of the essential knowledge and skills appropriate for the grade level of the target position. However, the plan will also be tailored to the individual trainee's needs and background. The duties assigned and training courses required will be commensurate with the trainee's past experience and training and program grade level. The plan will include both on and off-the-job training.

An individual training plan will be developed within 2 weeks after a trainee is officially assigned to a trainee position. The plan shall include:

- a. Orientation: (Duration: 1 week) The orientation will be designed to add to the knowledge of the trainee with respect to the history, mission and accomplishments of the NLRB, its organizational structure and program components, policies and rights. The orientation will be provided by the Division of Operations-Management and the Region.
- b. On-the-job Training: (Duration: 155 weeks) On-the-job training will be conducted in the office where the target position exists. Carefully supervised work assignments will become increasingly more difficult commensurate with the trainee's level of development.

1) Where additional formal training time is found to be desirable and available, on-the-job training time may be adjusted, as appropriate;

2) In addition to performing necessary training assignments, trainees will continue to perform assigned support staff duties as described below.

c. Formal Training: Thirty semester hours¹ of college courses will be taken, 15 of which are those listed in the Single Agency Qualifications Standard for positions classified in the GS-244 occupational series. During the first year, the trainee must take (if available) 3 semester hours in Speech/ Oral Communication, 6 semester hours in English Composition or College-level Writing, 3 semester hours in Logic, and 3 semester hours in Accounting. After the first year, the remaining semester hours must be from among those listed in the Single Agency Qualifications Standard, with the understanding that any of the above-listed credits, including Accounting, that were not satisfied in the first year of the program must be satisfied in the second year of the program. (Exception: A trainee who has already successfully completed the above college-level courses prior to entry into the program may be required to take an appropriate number of other courses while in the program.) The educational institution, the curriculum, and the cost assumed therewith, and schedule of courses must be approved in advance by the appropriate Regional Director in consultation with the Division of Operations-Management and the Human Resource Branch.

d. Self-Development: The trainee will be made aware of his/her own responsibility for self-development. Toward this end, he/she will be expected to read extensively from a selected list of materials that are pertinent to the career field (see sample training plan below).

5. Evaluation: The Division of Operations-Management and the Region will develop, supervise, and administer the evaluation phase of this program. The Human Resources Branch will have monitoring responsibility with respect to the evaluation system. Written supervisory evaluations of the trainee's progress and the effectiveness of the training will be required on a regularly-scheduled basis. Ninety days following assignment to a trainee position, a written evaluation will be made of the trainee's developmental needs and of the plan tailored to provide him/her with the necessary knowledge and skills. Subsequent written supervisory evaluations will be required quarterly thereafter. The supervisor is required to review the evaluations with the trainee at the time evaluation forms are completed. In assessing the trainee's overall progress, the supervisor will take into consideration the trainee's college course work. On an annual basis, the trainee will receive an annual appraisal and, where appropriate, a promotion recommendation. Upon completion of training, the Regional Director will submit a comprehensive evaluation of the achievement, including course work and performance of the trainee, and recommend to the Division of Operations-Management whether the trainee is qualified for the target position.

¹ Reference to semester hours is understood to also mean equivalent quarter hours.

The trainee will also be required to make written evaluations and furnish grade transcripts at the completion of any college course work or of formal training provided at NLRB expense, and quarterly will assess his/her own development. Should a trainee receive a grade of less than a "C" (or a rating of less than 2.0 under a numerical grading scale), this will be taken into consideration in assessing the trainee's ability to perform as a Labor Management Relations Examiner. Upon satisfactorily completing the training program and successfully demonstrating performance in the trainee position, the trainee will be eligible for reassignment or promotion to the target position. A written certificate of his/her satisfactory completion of training, under the program, will be filed in his/her Official Personnel Folder. The training program file will contain a record of the actual training provided each trainee. These files will be retained for minimum period of 2 years after completion of the training.

6. Action Upon Failure to Meet Standards: Except as indicated below, when the Associate General Counsel, Division of Operations-Management, determines that a trainee has failed to meet performance requirements, the trainee will, depending on the availability of suitable position vacancies, be laterally reassigned or returned to his/her former position or to a similar position with equivalent status and grade. In cases where an employee entered the program through change-to-lower grade, re-promotion to the employee's former grade level will be subject to competitive merit promotion procedures.

7. Promotions: There is no guarantee of promotion under the provisions of the program. Promotions will be based on positive determinations that the trainee has met the performance requirements, has satisfactorily completed the necessary training, has demonstrated an ability to perform the duties of the target position, and has been evaluated and recommended by the appropriate officials. This program does not, in any way, provide authorization for an exception to the time-in-grade restriction. Additional development of candidates beyond target positions will follow normal promotion procedures.

8. Counseling: Career counseling will be provided by the Regional Office and a representative of the Division of Operations-Management at the time he/she enters the program and at appropriate intervals thereafter.

9. Cost of Operating Training Program and Productivity Gains:

a. The NLRB is convinced that the cost of operating the training program will be more than offset over a period of time by improved employee morale, productivity and efficiency.

b. Additional funds will not be requested for the specific purpose of effecting grade adjustments.

10. Flexibility Provisions: To avoid the necessity for frequent minor changes in the

program caused by changes in the needs of the Agency or the trainee, it is permissible to:

- a. Alter length and intensity of the individual training plan to conform to the individual developmental needs of the trainee;
- b. Extend elapsed training time (not to exceed 1 year), as appropriate, in individual cases to cover contingencies such as sick leave, emergency annual leave, or a trainee's difficulty in grasping a portion of the training or a particular developmental assignment;
- c. Alter segments of training to permit learning experience to coincide with changes, the needs of the NLRB and of the trainee, and evaluation of experience with the training program;
- d. Add or modify subject matter material to reflect technological changes, the needs of the NLRB and of the trainee, and evaluation of experience with the training program;
- e. Curtail or modify the program due to staffing or budgetary reasons, although this is unlikely due to the priority accorded to upward mobility.

11. Administration of the Program: The Associate General Counsel, Division of Operations-Management, and the Director of the Human Resources Branch are responsible for administration of the program with delegated authority provided to subordinate staff members. The Division of Operations-Management and the appropriate Regional Offices will, in consultation with the Office of Employee Development, develop specific training plans within program guidelines and will review and evaluate their effectiveness annually.

Appendix

Sample Individual Training Plan

Name: J. Doe

Present Job Title: Labor Management Relations Aid or Assistant

Series and Grade: GS-303-__

Entry into Training: MM/DD/YYYY

Duration of Training: 3-year program

Objective: To develop, through planned reading, formal training, discussion and work experience, Bridgee's ability to perform the duties of a Labor Management Relations Examiner related to processing representation petitions and unfair labor practice charges, e.g., processing of petitions and charges, holding of conferences and elections, legal research, interviewing witnesses and obtaining relevant evidence; analysis of facts, procedures and law in representation and unfair labor practice cases; preparation of oral and written reports, forms and other documents.

Phase One (part 1): 1st and 2nd Weeks

I. Program Orientation – During the first session, the trainee meets with his/her supervisor and is given a detailed orientation on the provisions of the “bridge program” and the mechanics of its operation. The trainee receives information regarding the frequency of her participation in the program (i.e., no less than 3 days per week the first year, 5 days per week the second and the third years), frequency of evaluations (quarterly), the standard of performance the trainee is expected to achieve at each stage of the program, eligibility for promotion, college course work, and other aspects of the program regarding which the trainee may have questions. This session should also form a foundation for the development of a training program tailored to the specific needs of the trainee, based on the typical program, which follows.

Depending on the needs of the trainee, the Agency will pay for the following required college course work: 3 semester hours in Speech/Oral Communication, 6 semester hours in English Composition or College Level Writing, 3 semester hours in Logic (all to be taken during the first year of the program), and 3 semester hours in Accounting (preferably to be taken during the first year of the program). The remaining semester hours must be in one of the specialized areas, the substance of which is directly related to the work of the Agency (political science, government, economics, industrial relations, labor relations, personnel administration, business administration, accounting or labor law).

Tuition, books and fees will be paid by the Agency under the Government Employee

Training Act and in accordance with the provisions of the Agreement between the General Counsel of the National Labor Relations Board and the NLRBU covering Field support staff employees. The trainee will be required to submit reports on his/her progress at the end of each grading period.

Depending on the needs of the office, the trainee will perform support staff duties up to 40 percent of the time during the first year of the program.

II. Orientation to the Mission of the Agency and Functions of a Field Examiner –

The remaining sessions of the orientation broaden the trainee's view of the National Labor Relations Act, the Agency, the operations of the Regional Offices, and the role played by the Labor Management Relations Examiner.

The following training material and orientation to that material will be provided or made available to the trainee:

1. www.nlr.gov – Board and ALJ decisions; GC, OM and Advice memos; updated casehandling manuals and other publications; electronic filing (E-Gov); latest NLRB Annual Report
2. SurfBoard Intranet – Especially Westlaw, Shepherds, training programs and resources, Human Resources Branch materials, GC and OM memos, etc.
3. Microsoft Outlook Bulletin Boards
4. Region's library materials
5. The National Labor Relations Act
6. The Board's Rules and Regulations and Statements of Procedure
7. NLRB Organization and Functional Chart
8. NLRB Casehandling Manuals – Parts 1, 2, 3
9. A Guide to Basic Law and Procedures Under the NLRA
10. Representation Case Flow Chart
11. Set of Current NLRB forms – as needed
12. Reading assignments
13. A schedule of training
14. Agreement between the General Counsel and the NLRB Union (Professional Unit)
15. An Outline of Law and Procedure in Representation Cases – including Jurisdictional Guide
16. Hearing Officer's Guide

The historical background of the development of labor management relations and legislation preceding the National Labor Relations Act will be discussed. The instructor will assign reading and discuss the following topics.

A. The NLRB and its Organization

1. Development of National Labor Relations Act
 - a. National Industrial Recovery Act

- b. Wagner Act, N.L.R.B v. Jones and Laughlin Steel Corp., 301 U.S. 1 (1937)

Phase One (part 2): 3rd week to 52nd week

Under close supervision, and with experienced Board agents as mentors, the trainee is exposed to certain aspects of representation and unfair labor practice case handling.

I. Representation Cases - The trainee first observes, then assists, and finally conducts secret ballot elections and processes petitions. Elections and consent conferences are conducted with an experienced agent or supervisor present for advice and assistance. Depending on development during the year, the trainee may become solely responsible for certain of these functions. Assignments progress from petitions involving small units with no anticipated issues to larger and somewhat more complex bargaining units. During this period, the trainee will receive instructions and guidance in the use of research tools and in the preparation of written reports with respect to initial processing of petitions. The subject matter for study and discussion during this period is as follows:²

A. Objectives

- (a) NLRB function in determination of representatives
- (b) Importance of expeditious handling in Representation matters; time targets

B. Procedure in Representation Cases

1. Preparation

- (a) The Petition - who may file, types: RC, RD, RM, UD, UC, AC, VR
- (b) Assistance in preparing petition
- (c) Information required
- (d) Docketing of petitions and amended petitions - Filing date, responsibility when filed in field.

2. Review information on the petition – names and contact information for parties

² In addition to these suggested reading topics, the supervisor will consider appropriate reading assignments in The Developing Labor Law.

for Labor Management Relations Examiner**

| | | | |
|------|-----------|--------|-------|
| Name | Job Title | Region | Grade |
|------|-----------|--------|-------|

I hereby apply for the National Labor Relations Board Bridge Program for Labor Management Relations Examiner position, General Schedule Positions GS-4, 5, 6, and 7.

I acknowledge that in order to allow for promotions during the Bridge Program, and because the nature of the Bridge Program precludes a final determination as to my conversion until completion of the entire program, all promotions during the Bridge Program are temporary. Should I fail to meet the standards of the Bridge Program and be returned to my former, or as appropriate, other position, the loss of any temporary promotion received during the program is not an adverse action. However, upon successful completion of the Bridge Program, if I am converted to the target position by reclassification at the same grade, the most recent promotion I received during the program will become permanent. If I am converted to the target position by promotion to a higher grade, such action shall be a permanent promotion.
