

Gary Shinnors, Executive Secretary  
National Labor Relations Board  
1015 Half Street SE  
Washington, D.C. 20570-0001

Case # 07-RD-228723

Dear Mr. Shinnors,

I am formally requesting a review of the action that the decertification petition I filed on behalf of my co-workers be **not** held in abeyance until the alleged unfair labor practices (filed by F.A.I.R.) that are pending, be resolved.

We feel that our interests are being ignored and that the F.A.I.R. organization is being favored. This organization has failed to represent our best interest over the last 15+ months. We feel that the charges filed are intentionally being pursued to postpone an election where us employees will be allowed to decide if we want the F.A.I.R. organization and Steve Marrs to represent us.

F.A.I.R. has failed to communicate with us over the last year, they have failed to negotiate a contract or even attempt to sign any new members. Over 50% of our current staff have never been contacted by any representative of the F.A.I.R. organization. We were never even asked what issues that we would like addressed in bargaining or invited to participate in any way.

We believe it is past time to let the majority decide. The pending cases have been delayed for months denying our right to due process. We are requesting that you allow the processing of our decertification petition to proceed as soon as possible to allow us our free choice to representation.

Respectfully,

Kris Barry
